

### **Message in Bottle**

Stories are told of shipwrecked sailors stranded on a desert island putting a message in a bottle and dropping it in the sea. The idea was that the tide would wash it up on a beach somewhere and might be picked up by someone who could send help.

Make your own message in bottle...

Write or draw a message to someone you know. It might be Mum, Dad, a brother or sister... or perhaps a special friend. Roll it up and pop into an empty plastic bottle and screw the cap back on. Hide the bottle somewhere in your house or garden and ask the person to see if they can find it.

Perhaps they could then hide a message in a bottle for you to find!
